SKILLS

- Python, PyTorch
- TensorFlow, CUDA
- Linux, Docker, Git
- Laravel (PHP), Node.js
- SQL, Redis
- React, TypeScript
- RAG, Vector Search (Qdrant)
- MCP, Agentic Workflows
- Hugging Face Transformers
- ComfyUI, Diffusion Models
- LLM Integration
- Model Fine-tuning
- GPU Deployment
- CI/CD, GitHub Actions
- Quant & Financial Analysis

LANGUAGES

- Bulgarian (Native)
- English (Fluent)
- Italian (Intermediate)

EDUCATION

Master of Science: MSc Investment Analysis 2016
Aston Business School (Birmingham, UK)

Bachelors: BSc Business Management 2014
Aston University (Birmingham, UK)

WORK EXPERIENCE

AI Platform Engineer

Aif net Ltd. | Sofia, Bulgaria | March 2023 – Present

- Designed and deployed GPU inference infrastructure supporting 500k+ daily AI generations across multiple consumer platforms, managing full lifecycle from research to integration and maintenance of over 20 generative models.
- Architected and maintained scalable local, cloud and serverless systems in Microsoft Azure, Vast.ai, RunPod and Modal.com.
- Built internal tooling and automation pipelines in Laravel including auto-scaling GPU fleet management, semantic vector search (Qdrant), and model fine-tuning workflows.
- Engineered agentic infrastructure enabling LLMs to autonomously interact with external systems — including tool-calling pipelines, MCP server integrations, and retrieval-augmented workflows — for automated monitoring, trading signals, and content generation.

Project Manager

BenchMark Group | Sofia, Bulgaria | 2018 – 2021

- Led project analysis, financial modeling and investment research across fintech, crypto, industrial and real estate sectors, leveraging Python and data analysis tools.
- Managed cross-functional workflows using Jira, driving process automation and coordination with external partners on acquisitions and new projects.

Algorithmic Trader

HiQ Invest BV | Sofia, Bulgaria | 2016 – 2017

- Developed and managed algorithmic trading strategies in Python, including backtesting frameworks and automated execution for equities within a market-neutral portfolio (~\$10M AUM).
