- Bulgarian (Native)
- English (Fluent)
- Italian (Intermediate)

EDUCATION

Master of Science: MSc Investment Analysis 2016
Aston Business School (Birmingham, UK)

Bachelors: BSc Business Management 2014
Aston University (Birmingham, UK)

WORK EXPERIENCE

AI Infrastructure Engineer

Aif net Ltd. | Sofia, Bulgaria | March 2023 – Present

- Designed and deployed GPU inference infrastructure supporting 500k+ daily AI generations across multiple consumer platforms, managing full lifecycle from model integration to end-user delivery.
- Architected and maintained scalable cloud and serverless systems for generative image, video and audio production, optimizing for inference speed, reliability and cost efficiency.
- Built internal tooling and automation pipelines including auto-scaling GPU fleet management, semantic vector search (Qdrant), MCP integrations, and model fine-tuning workflows.

Project Manager

BenchMark Group | Sofia, Bulgaria | 2018 – 2021

- Worked directly with the Board of Directors on evaluating, planning, and executing investments, acquisitions, and new business initiatives.
- Led project analysis, financial modeling, budgeting, and coordination with external partners across fintech, crypto, industrial, and real estate sectors.

Algorithmic Trader

HiQ Invest BV | Sofia, Bulgaria | 2016 – 2017

- Developed and managed algorithmic and discretionary trading strategies for European equities within a market-neutral portfolio (~\$10M AUM).
- Performed quantitative and fundamental research, portfolio rebalancing, and risk management.
